

LED Indicator Status

Standby:

The LED indicator will light up blue when the unit is plugged in and on standby.

Charging:

The LED indicator will flash. This means the charging pad is safely charging your device.

Fully Charged:

The LED indicator will turn off once your device is fully charged.

Cleaning your Device

To safely clean your charging pad, wipe with a soft, dry cloth. Never use any cleaning agents or abrasive materials.

Specifications

Input: 5V/2A - 9V/1.67A

Output: 5V/1A - 9V/1.1A

Transmission distance: 5-8mm

Wireless power charging efficiency: 85%

Working frequency: 110-205KHz

Fast charging function requires QC2.0 or higher power adaptor

Compatible with all
Qi enabled devices

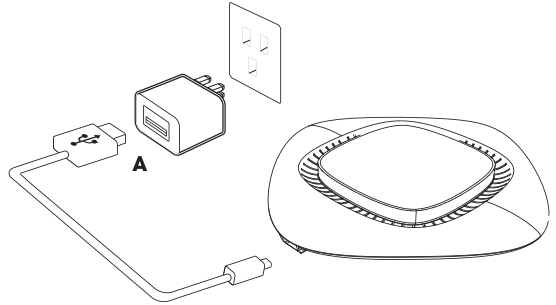

Charging your Device

PLEASE NOTE:

- Make sure your device is Qi-compatible
- Case compatibility: Do not use a metal case
- If you are having issues charging, remove the case

Step:1

Connect the supplied micro USB cable to a USB adaptor (A). Then connect the other end to the wireless charging pad. Always place the charging pad on a flat, clean surface such as a desk or side table.

Step:2

Place your Qi enabled device directly onto the charging pad. Refer to the diagram for correct placement.

The charging time will depend on the type of device you are using. Your device will display the charging progress. You may remove your device from the charging pad at any time.

Important Safety Instructions

Failure to follow the safety instructions can lead to fire, electrical shock, personal injury or property damage or damage to the product.

- Do not use this charger for anything other than its intended use.
- Keep the charger away from heat sources and direct sunlight.
- Do not expose the unit to extremely high or low temperatures.
- Use the product in a location with a temperature between 0°C - 35°C.
- Do not let the charger come into contact with water or any other liquid. If the charger becomes wet, immediately unplug it from the power source.
- Do not handle the charger or USB cable with wet hands.
- Do not let dust accumulate on the charger.
- Do not use the charger if it has been dropped or damaged.
- Repairs to electrical equipment should only be performed by a qualified electrician. Improper repairs may place the user at serious risk.
- If you have an electrical device, such as a pacemaker, please consult your doctor before using this product.
- Do not place magnetic cards or similar items near the charger.
- Use the specified power source and voltage.
- Do not use a voltage converter/travel adaptor.
