Product Summary

Product Description

A ceiling speaker kit with stereo speakers and an amplifier module with the added benefit of full Bluetooth capability. Ideal for easy and safe audio output in any room in the house you choose. It is simple to pair with any Bluetooth enabled device such as a smartphone or tablet, and minimises the risk of water damage to your expensive electronics when used in bathrooms.

Kit Contents: - 2 x 12W Ceiling speakers - 1 x Bluetooth receiver module - - prewired with 2x 3m speaker cables and 25cm power lead - 1 x User guide

Play your favourite music from your smartphone, tablet or other Bluetooth device in your kitchen, bedrooms and bathroom

Easy to install with very low profile grille fitting almost flush with the ceiling

Compact design fits a 74mm diameter cutout similar to ceiling downlights for a simple and discrete solution

The pre-wired compact Bluetooth module is fitted in the ceiling space and can be connected to an existing lighting circuit
