

## 48-Element High Gain TV Aerial

Designed for medium and weak signal areas

Labgear's LHG10K 48-Element High Gain TV Aerial is a high-performance TV aerial, specifically designed to mitigate interference from 5G/4G mobile phone transmitters. With a 14.0dBi gain and tuned for Group T signals, it's ideal for ensuring clear digital TV channels in areas with potential mobile signal interference.

### Features

- Specifically tuned to receive Group T TV signals, ensuring compatibility with a wide array of broadcasts.
- High 14.0dBi gain for excellent signal capture and amplification.
- F-type connector for secure and straightforward installation.
- Fast and simple assembly, ensuring a hassle-free setup process.
- Designed to provide resistance to 5G/4G mobile phone signal interference, ensuring clear TV reception.
