

24 Hour Plug-in Mechanical Timer

P/N 20151PI

TS: AE648 User Guide

Specifications

Supply voltage: 230V~50Hz, 13A

Rating: 13A/2990W

Inductive Load Rating: 4-6A

Switch operations: 24 hour - 48 x 15 minute
On/Off per day

Warnings

For indoor use only.

Do not use with any appliance with a rating that exceeds the timer's capacity. *

Plug-in to a 13A mains socket - do not use with any kind of electrical extension.

Make sure timer is fully plugged into a mains socket and the plug of the appliance is fully inserted in the timer socket.

To clean unplug the timer and wipe with a clean dry cloth.

How to Use

1. Pull up all the 15 minute time segments to the Off position.
2. Push down the segments for the periods of time you plan to have your appliance switched on.
3. Rotate the dial clockwise to align the current time with the arrow.
4. Slide the timer On/Off switch on the right-hand side to Timer (down).
5. Plug the timer into a 13A mains socket.
6. Plug appliance into the timer socket.

N.B. To override the timer when the appliance is switched Off and you want it On, push the Timer Switch to the Up (**ON**) position. Push the switch back down to return to timer control.
