20152PI

Flush Mount Electronic Timer

Support 24 hours / 7 days

Flush Mount 7 days electronic timer allows you to set different schedules for each day of the week, giving you greater flexibility and improved energy efficiency compared to a standard daily timer. With up to eight on/off programmes per day, it's ideal for controlling lighting, heating, and other appliances. A built-in battery backup saves your settings during power cuts, and the manual override provides instant control when needed.

Key Features

- 7 days electronic timer to set schedules for each day of the week
- Up to 8 on/off settings to control the devices daily
- Built-in battery to keep your programme safe during power interruptions
- Compact or surface-mount version for best fit in your setup
